

IEC Response Action Form and Source Control Report

This submission describes actions taken to initiate the removal of the source of contamination that caused an IEC condition (such as contamination found in a drinking water well or contamination that impacts indoor air quality).

Things you need to know...

- An updated IEC Response Action form and report must be used to report that the source of contamination that caused the IEC condition is being controlled.
- If you have reported an IEC condition, you should have an assigned IEC case manager. If you have questions about your obligations related to the March 1, 2012 deadline please call your assigned case manager.
- Who does not need to submit by March 1, 2012?
 - Any person that has not identified an IEC condition.
 - Cases that identified an IEC condition after March 1, 2010 (the mandatory time frame is 2 years from when the IEC condition was identified).

The IEC Response Action form and instructions are available at
<http://www.nj.gov/dep/srp/srra/forms/>

Refer to the quick reference guide for the IEC requirements at
http://www.nj.gov/dep/srp/srra/training/matrix/new_responsibilities/iec_final.pdf

Don't forget if you identified an IEC condition after March 1, 2010...

The IEC Response Action form with the IEC Contamination Source Control Report is required to be submitted to the Department in compliance with the following time frames:

- The regulatory time frame for this requirement is 1 year from when you identified an IEC condition, and
- The mandatory time frame for this requirement is 2 years from when you identified an IEC condition.
